“New directions in Conveyor & Transfer Solutions” – Rotacastor

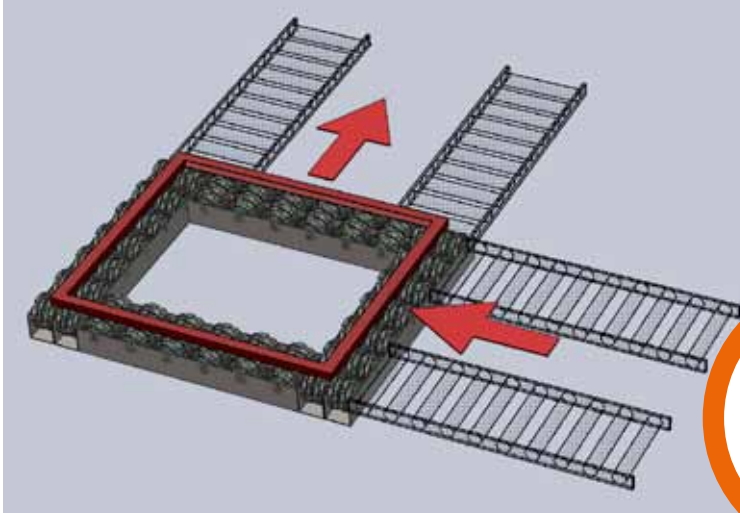

The patented 360° maneuverability has brought new levels of conveyor transfer and multidirectional movement applications.

- **COMPACT SIZE PER M²**
 - Greater load distribution
 - Reduced soft surface indentation
 - Handles greater surface range
 - Load stability

- **TOUCH & ROBUST**
 - Improved impact resistance
 - Higher load capacity
 - Reduced downtime to lost rollers
 - Full polymer construction

- **OTHER BENEFITS**
 - Rust free
 - Lighter, quieter, smoother
 - Faster
 - Easier to install
 - Adaptable to various climates
 - No marking

STANDARD GRAVITY FLOW TRACK - PROVEN

- Galvanize Channel
- ø4mm Rivet
- ø34mm Roller Wheel
- Connection Brackets Available
- Priced Right!
