

DURASTRIPE®

PEEL-&-STICK FLOOR/AISLE STRIPING

PAGE 1

DURASTRIPE SUPREME V

This will be the fifth generation (V) of the original DuraStripe and hopefully one which can fulfill the requirements in the market place for a long time to come. The Supreme V combines the adhesive from the original DuraStripe which is the superior choice under non ideal floor conditions along with the low impact profile of DuraStripe Lean. It also has the added benefit of having tapered edges to eliminate most of the potential tripping & impact hazards.

SPECS

New building / smooth floors:	Excellent
Porous floors:	Superior
Old, oily, dirty, or epoxy floors:	Superior
Uneven or tiles:	Superior
Available in 55 shapes:	Yes
Available / custom colors:	8 / Yes
Standard widths in millimetres:	50 - 860
Beveled edge:	Yes
Roll Length:	30m
Nominal Thickness:	34 Mils

DURASTRIPE X-TREME

This new heavy-duty DuraStripe is made for critical environments and areas where pivoting with forklifts / tow motors can occur. DuraStripe X-Treme has a special coated surface that facilitates easy cleaning. The X-Treme as with the DSV, comes with bevel edges to limit damages from dragging or pulling of pallets.

SPECS

New building / smooth floors:	Excellent
Porous floors:	Superior
Old, oily, dirty, or epoxy floors:	Superior
Uneven or tiles:	Superior
Available in 55 shapes:	Yes
Available / custom colors:	9 / No

SPECS*

DURASTRIPE MULTIFLEX*

This European made, first generation DuraStripe set the standard for all aisle striping products available on the market today. This product is ideal for applications where there is light to moderate forklift traffic.

* MULTIFLEX avail in Europe only

HIGH TRAFFIC / HIT ZONES

If your floors have areas of high traffic or hit zones we recommend two ideal DuraStripe products. The DS Supreme V is the superior choice because of its tapered edges, but DS Supreme V PUX are an excellent alternative due to easy replacement. "One pux get ripped up, just replace it in seconds".

DURASTRIPE WALKWAYS

OSHA code 1910.22(b)(2) requires permanent aisles and passageways to be appropriately marked. Peel-&-stick Walkways are the fast and inexpensive solutions for keeping pedestrians safe around towmotor traffic and heavy machinery.

DURASTRIPE IN-LINE PRINTING

DuraStripe is now available with custom in-line graphics, messages or logos. Customize your workplace with DuraStripe that is relevant to your environment. DuraStripe In-Line Printing is the only floor striping that has 100% smear resistant custom graphics.

DURASTRIPE GLOW

DuraStripe Glow Striping is ideal for communicating evacuation routes or exits to workers during a power outage.

DURASTRIPE SHAPES

DuraStripe Shapes are perfect for any 5S or Six Sigma program and available in an array of die-cut shapes and characters. These durable floor markings will communicate safety instructions and can withstand pedestrian or forklift traffic. DuraStripe Shapes are so easy to install and reconfigure, you just peel-&-stick! This will save you time and money from having to paint floor markings. Available in DuraStripe Supreme V, Lean, X-treme and Hazard!

DURASTRIPE STOP-GOES

DuraStripe Stop-Goes are a great tool for Ergomat ergonomic matting that allows you to "high-light" edges or mark off sections in your mat. Peel-&-Stick Stop-Goes are ideal for 5S/Six Sigma programs that will make your work environments safer for workers.

DURASTRIPE SIGNS

DuraStripe Signs are now more vivid and UV fade resistant. Great for any 5S or Six Sigma program, these durable floor signs can be customized to communicate your own safety instructions and can withstand pedestrian or forklift traffic. DuraStripe Signs are so easy to install, you just peel-&-stick. DuraStripe Signs save you from painting hassles such as dry time, cure time, and down time. DuraStripe Signs are the ultimate 5S floor solution that makes safety affordable!

APPLICATOR

Application Speed (w/ custom applicator) for 2"- 4" rolls:

1600+ feet/hour/employee, during operation

Only to be used with DuraStripe LEAN
