

# STRETCH WRAPPERS

Easy to use! Cost effective!

# THE LO WRAPPER

Low Profile for Hand Pallet Trucks

Benefits of the Lo-Wrapper include:

- Available in Manual or Semi-Automatic
- Reduced work effort and risk of injury when wrapping pallets
- Consistent wrap patterns guaranteed
- 26mm high turntable provides easy hand pallet truck access
- Turntable accepts a standard pallet
- 2000kg capacity
- Improved mechanical stretch provides constant tension independent of roll diameter
- Quick release lever to disengage film tension

The semi auto Lo-Wrapper has these additional features

- Set and forget 5 pattern memory program
- No manual effort required
- Cycle counter
- Standard 2600mm wrap height

## SPECIFICATIONS

SERIES 3 LO WRAPPER		SEMI-AUTO	
POWER:	240 Volt single phase	SHIPPING DIMENSION:	3300 long
ROTATION SPEED:	9 rpm		1300 wide
LOAD CAPACITY:	2000 kg	(with mast lowered)	870 high
TURNTABLE HEIGHT:	26mm	MAST HEIGHT:	2870 mm
<b>MANUAL</b>		WRAPPING HEIGHT:	2600 mm
SHIPPING DIMENSION:	3000 long	<b>OPTIONS:</b>	
	1300 wide	• Soft start or variable speed.	
(with mast lowered)	650 high	• Additional ramps (one is supplied standard)	
MAST HEIGHT:	2420 mm	• Relocation frame for easy relocation of the Lo-wrapper	
WRAPPING HEIGHT:	2175 mm	• Three-phase motor and low-voltage controls	
		• Kit to allow hand rolls to be used	
		• Extended Base (600mm longer)	

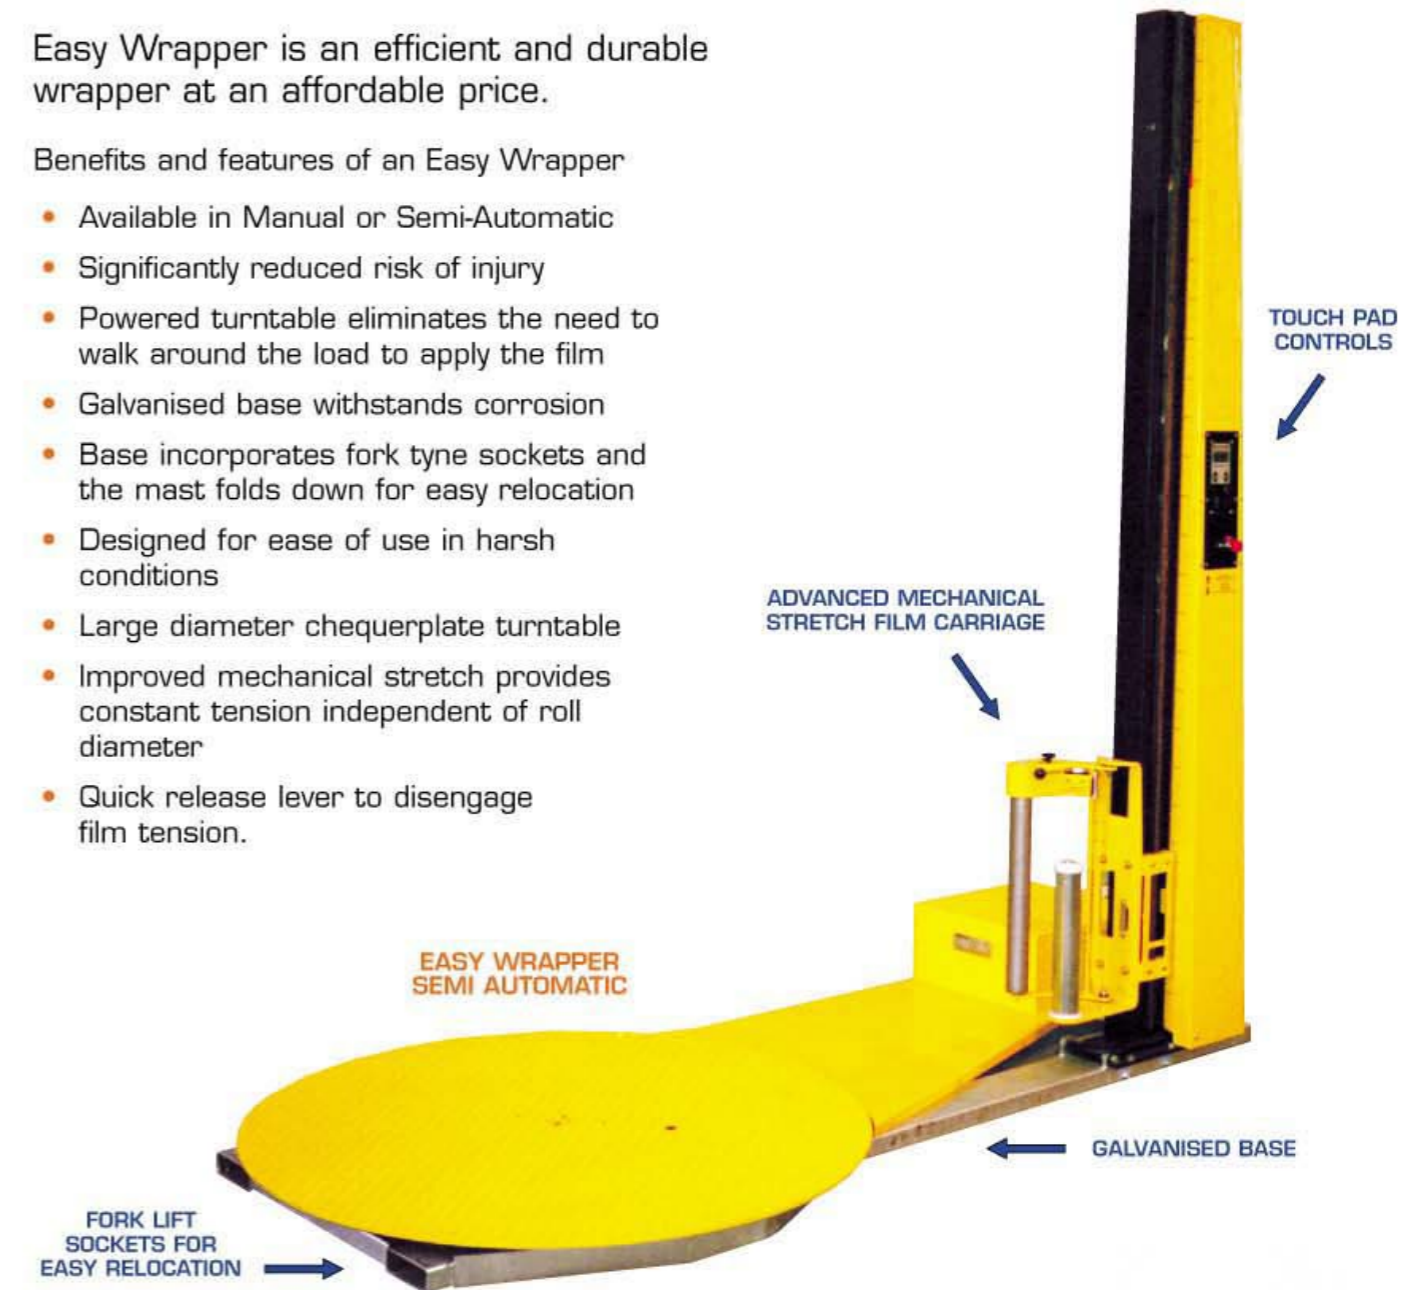

# THE EASY WRAPPER

Simple, Safe and Economical - makes hand wrapping unnecessary

Easy Wrapper is an efficient and durable wrapper at an affordable price.

Benefits and features of an Easy Wrapper

- Available in Manual or Semi-Automatic
- Significantly reduced risk of injury
- Powered turntable eliminates the need to walk around the load to apply the film
- Galvanised base withstands corrosion
- Base incorporates fork tyne sockets and the mast folds down for easy relocation
- Designed for ease of use in harsh conditions
- Large diameter chequerplate turntable
- Improved mechanical stretch provides constant tension independent of roll diameter
- Quick release lever to disengage film tension.

# SEMI AUTOMATIC FEATURES

Enhance productivity by specifying the semi-automatic Lo-Wrapper or Easy Wrapper. After tying the film to the pallet the operator can walk away while the wrapping is completed automatically. Just cut the film and unload!

## SEMI AUTOMATIC FEATURES & OPTIONS

- Standard 2600 wrap height
- Simple touch pad controls
- Turntable return to start
- Set and forget 5 pattern memory program
- Half, full and top sheet cycles
- Cycle Counter
- Photo eye available for pallet height detection
- Optional 3200 mm extended mast

# COMPLETE STRETCH WRAPPING SOLUTIONS

From entry level manual stretch wrappers to fully automatic in-line wrapping systems we have the product to solve your stretch wrapping problem. Stretch wrappers increase productivity, decrease film usage and cost and improve worker safety.

Our range of wrappers includes the popular Lo-Wrapper and Easy Wrapper series, the fully optioned powered pre stretch STP and the powerful JMP automatic wrapper systems.

Local manufacture means total support and the confidence of quality design and construction from one of Australia's leading materials handling equipment companies.

### STP SEMI AUTO POWERED PRE-STRETCH WRAPPER

Fully optioned powered pre-stretch wrapper that delivers enormous savings on film usage

- Multiple film wrap settings

### MANUAL EASY WRAPPER AND LO-WRAPPER

Our entry-level wrappers reduce worker strain, improve the quality of the film wrap and the efficiency of film usage.

Easy Wrapper's rugged, galvanised construction makes it a reliable and productive addition to your workplace.

Lo-Wrapper is the only wrapper ideally suited to hand pallet truck access because its turntable is only 28mm high - the height of a 1 dollar coin.

### SEMI AUTO EASY WRAPPER AND LO-WRAPPER

All the benefits of the manual versions plus the advantages of a powered mast and extensive touch pad control options;

- Multiple film wrap settings
- Turntable return to start
- Operator can start wrap and walk away.
- Half full and top sheet cycle options
- Memory function
- Consistent wrapping quality

### FULLY AUTOMATIC IN-LINE STRETCH WRAPPING SYSTEMS

Supply and integration of automatic stretch wrap systems designed to suit your production and warehouse requirements.

High speed, reliable and proven throughout Australia and New Zealand
